

# A quick start guide to

**iLovePDF Desktop**

# Features to boost your productivity

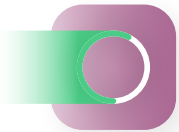

## Work offline

Downloading the Desktop app unlocks the iLovePDF tools offline. Documents are kept locally on your computer so you don't need to save them in any kind of external cloud or storage.

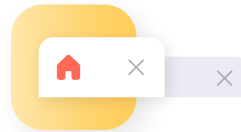

## No document limits

Subscribing to the Premium package means no limits on the amount of documents, pages, or file size when using the Desktop application. With iLovePDF Desktop, you are free to manage your PDFs without restriction.

## Faster processing

Using the iLovePDF Desktop tools will process files faster than when you're working online, a useful feature for people who are dealing with multiple documents or documents with a large file size.

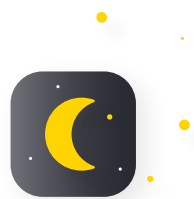

## Create multiple tabs

You can create multiple tabs to work on various documents at the same time, easily navigating between them or adding more with a few clicks.

## Free PDF Reader

Need to read PDF documents straight from your desktop? The powerful PDF Reader helps you read large PDF documents easily.

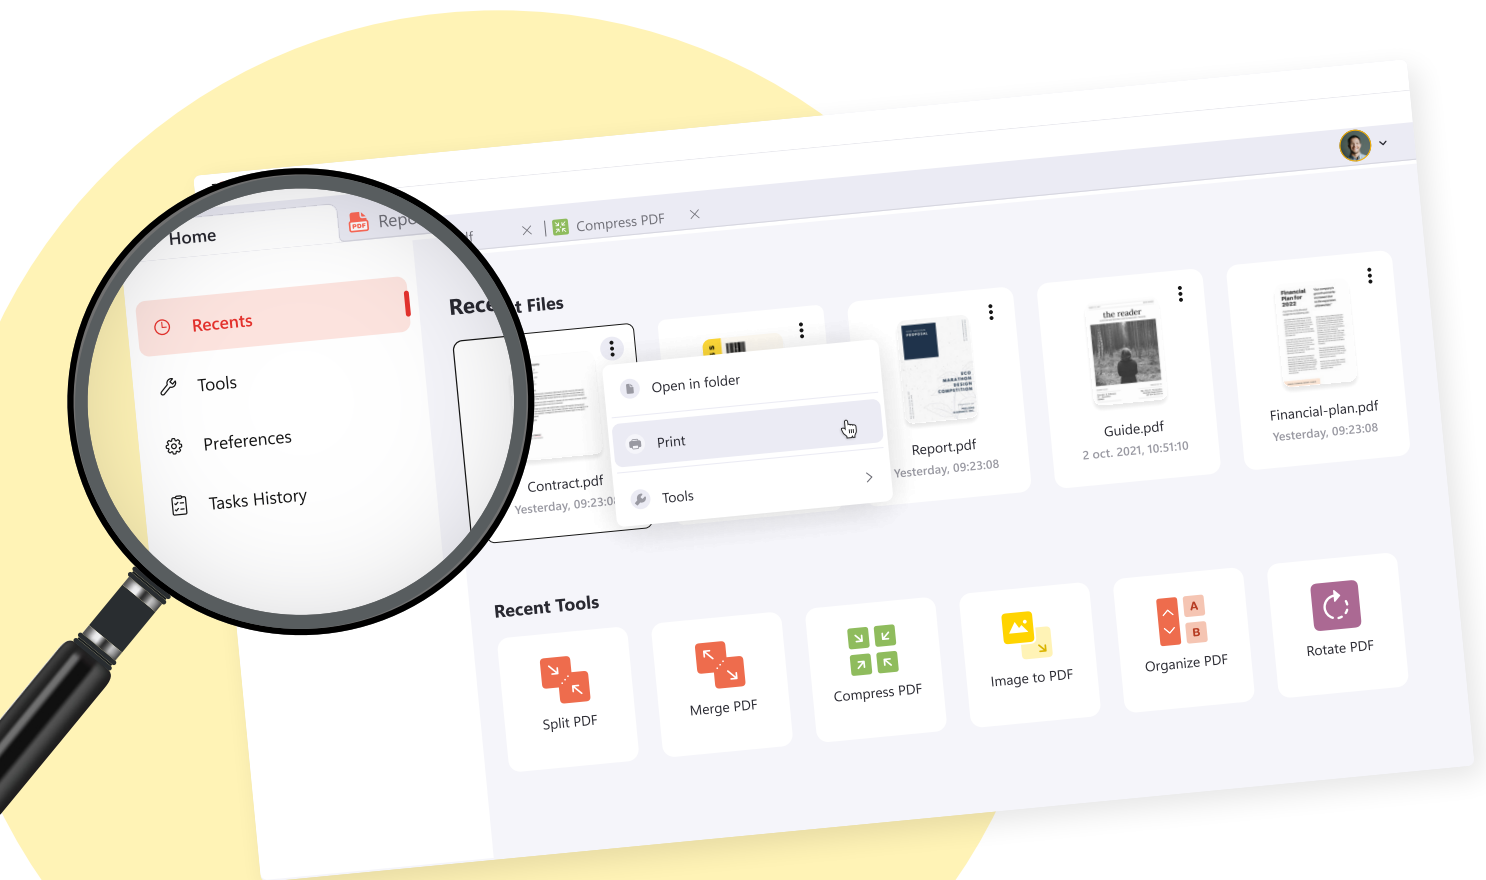

## Dark mode

Simply switch between light and dark mode with this option that reduces eye strain. Try changing the style when you work to find the mode that best suits your preferences.

# Get started

## Recents

The Recents tab will show you a list of your most recently edited documents and tools used.

## Tools

Easily manage your documents all in one place.

## Tasks History

View, save, and delete your previous tasks.

## Preferences

Edit your preferences to create a more personalized user experience.

# Make the most of your PDFs

## Organize

### Organize, Split, and Merge PDF

files to better manage your documents. Reports, study material, contracts; easily organize your documents as you need and boost your productivity.

## Optimize

**Compress** large files to make them easier to send and save on storage space. Avoid intimidating file size without compromising visual quality. You can also repair PDF files with the **PDF Repair** tool.

## Convert from

Transform **PDF and images to Office** files just as easily. Available for Word, Excel, PowerPoint, JPG, and PNG files. Converting from PDF unlocks the editing potential and lets you convert back to the original file type.

## Convert to

Convert **Office files and Images to PDF** with a few simple clicks. Available for Word, Excel, PowerPoint, JPG, and PNG files. Converting to PDF makes sending and saving documents much smoother.

## Edit

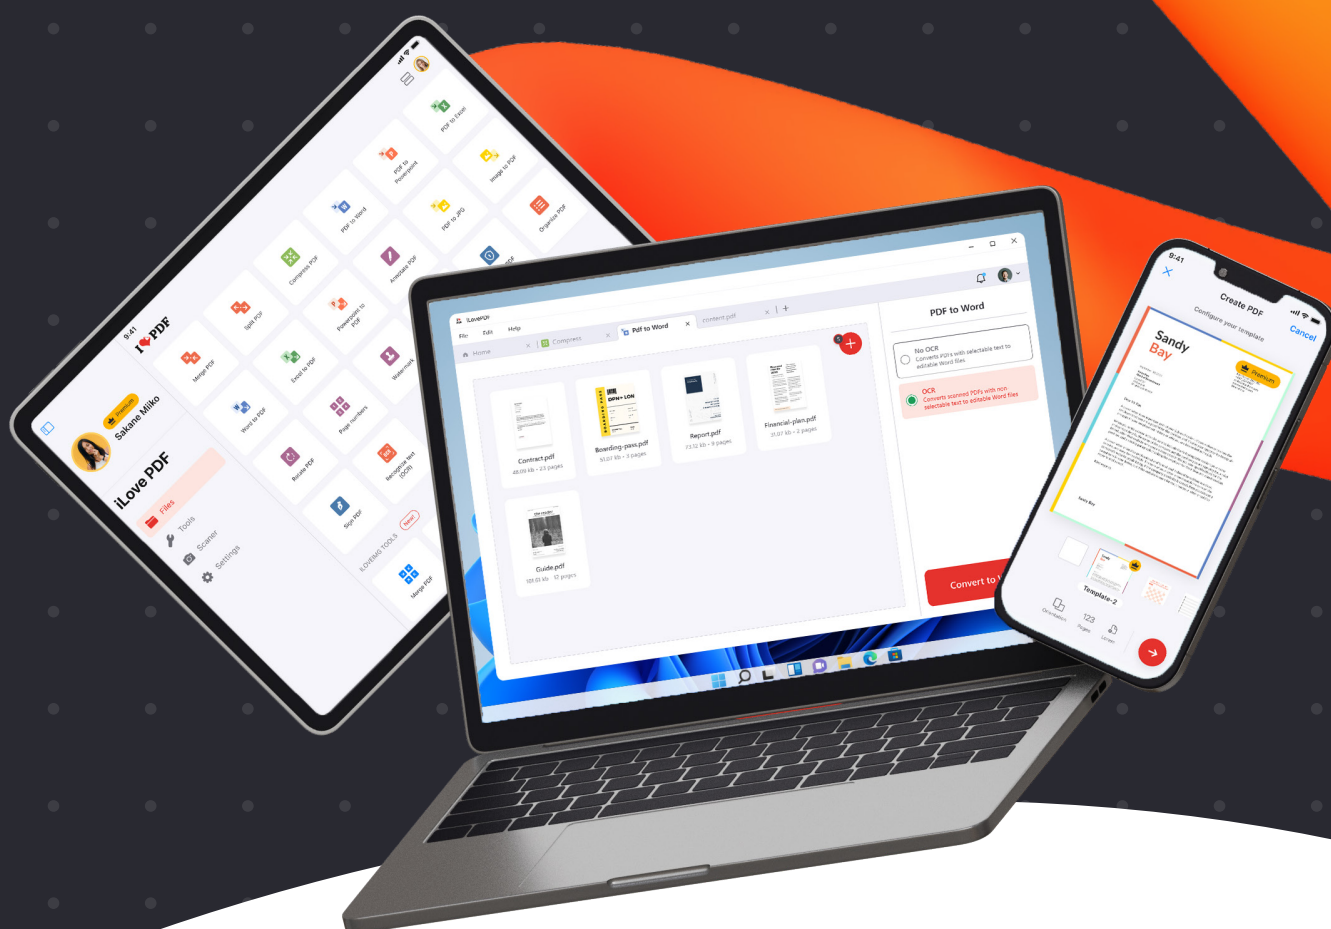

**Rotate**, add a **Watermark**, and add **Page Numbers** with the edit PDF tools. Modify your PDFs to align sections of your documents, make the content order clearer, and protect your work from unauthorized use.

## PDF Security

Keep important documents safe. Encrypt and **Protect PDF** files with a password to safeguard sensitive information. You can also remove PDF passwords for easier access to your documents.

# Get more with Premium

## ➤ Web, Mobile, and Desktop

Enjoy iLovePDF from all your devices. Work from anywhere with the mobile app and use the Desktop service to work offline.

## ➤ e-Sign with Digital Signatures

Benefit from digital signatures: a more advanced style of electronic signature with legally binding protection.

## ➤ Work with higher limits

Limitless editing of documents, pages, or file size with the Desktop app. Higher limits for Web, and unlimited tasks on the Mobile app.

## ➤ Access to OCR & PDF/A

Using optical character recognition (OCR) gives more accurate results converting documents. Use PDF/A for long-term archiving.
